

ASTRA Rental Program

Learn how renting ASTRA Automated Reprocessors for endovaginal, endorectal, and transesophageal (TEE) ultrasound probes can help you save thousands of dollars with low operating costs, requiring zero money down.

WHY RENT ASTRA?

Immediate savings

- Save thousands of dollars **immediately** by switching to ASTRA vs. other automated reprocessing systems*
- ASTRA rental cost may be less than running your current system*

Low operating costs

- Reduce disinfection operating costs by **33% each year** by switching to ASTRA*
- Save money with FDA-approved reusable disinfectants versus expensive single-use bottles

Renting is easy

- **Zero money down**; conserves capital
- Monthly payment never changes
- Includes installation and service
- Includes extended warranty for life of term

COMPLIANT WORKFLOW

ASTRA Automated Ultrasound Probe Reprocessors offer enhanced capabilities to increase your compliance with disinfection guidelines and manufacturer instructions. ASTRA ensures the correct use of disinfection consumables, tracks all necessary disinfectant solution and test strip information, and fully removes the need for any manual data logging.
