

Optimized, Compliant, Affordable Disinfection

with ASTRA® VR Automated Reprocessors
for Vaginal/Rectal Probes

ASTRA® VR
ENDO VAGINAL/ENDORECTAL PROBE REPROCESSOR

Compliant Workflow

- Automated data logging, consumable tracking, and easy-to-follow prompts help you stay compliant with The Joint Commission standards.
- Compatible with hydrogen peroxide high-level disinfectant
- Approved for use with leading vaginal/rectal probes (including bi-plane probes up to 16 inches long)

Optimized Speed

- Disinfect up to two probes at once
- 12 to 16 minutes total reprocessing time*
- No sleep mode

Significant Savings

- Reusable disinfectant compatibility helps reduce long-term operating costs with your choice of industry-leading disinfectants: UltrOx™ (Hydrogen Peroxide) HLD, Revital-Ox® RESERT® (hydrogen peroxide) HLD, CIDEX® OPA, and MetriCide™ OPA Plus

“We went with the ASTRA because of its dual probe cleaning function – that is such a time saver. We had 15 procedures last Monday [...] that was record. But since we were able to clean two [probes] at the same time, we were able to do it.”¹

-Department Manager
